KEY ELEMENTS

- DASNY project
- Sub-consultant
- Higher education facility
- Topographical survey
- 3-acre campus
- AutoCad v.2016

SUMMARY DETAIL:

Serving as a subconsultant to Bergmann Associates as part of their DASNY A/E term agreement, the firm provided a complete horizontal and vertical survey baseline (NAD83, NAVD88, SPC NY Western Zone).

The project included a topographical survey of approximately three acres, with a completed survey map at one-foot contour intervals designed in AutoCAD v2016.

The base map survey was submitted to Bergmann to assist with the design of retaining walls and new sidewalks for the campus.
